

Laser Assisted Dentistry

Customized training for the entire office

Description

Customized team training on use of the DEKA CO2 Laser and how to incorporate laser dentistry and procedures into the practice. These skills will promote excellence in dentistry and help grow the practice by adding new procedures and reducing referrals. CE credits will be issued according to time spent in lecture and with patients.

Topics

- Protocol for non-surgical periodontal laser therapy
- OSHA laser safety
- Chairside mentoring for Dentists and Hygienists
- Principles for excellence in hygiene
- Biologic rationale
- Laser physics
- Marketing, promotion, and billing
- Laser maintenance

Instructor

Joy Glazier Whittle, RDH, BS has practiced as a Dental Hygienist in California and Utah for 35 years. She became the laser specialist for DEKA in 2010 and is proficient in the CO2 wavelength. Interested in research on lasers in Dentistry and Periodontal therapy, Joy returned to school and obtained a BS degree in Dental Hygiene from Weber State University in 2012. Previously, she served as the Clinical Education Supervisor for Implant Direct as well as their Laser Specialist. Currently, Joy co-instructs the DEKA Laser Proficiency course as well as performs onsite laser mentoring trainings and implant maintenance courses in dental offices throughout the country.

“Joy’s training was invaluable. We were able to incorporate the laser into many of our treatment modalities, including hygiene. The results have not only been phenomenal, but increase in our productivity has been an added bonus.”

-Kim G. Roberts, DDS | Salt Lake City, UT

“One of the best courses using the DEKA CO2 laser... her course was both interesting and motivating”

-Craig R Huenergardt | DDS Oceanside, CA
